Subject: 12 June 2020: Update on the return of research students

Dear Students,

We hope you and your family are doing well. Some of you would be planning your trip to return next week.

We have received more than 50 students and a few faculty members (some of them were abroad) over the past few days and the process for their return has been validated and has been smooth so far. We had late arrivals and they have been provided transit accommodation as planned.

Our security personnel are working hard at the gates and at the hostels. The Chief Medical Officer and the team of doctors from our Health Centre have been closely involved in checking the health when you return and also monitor those in quarantine on a regular basis. Our Hostel Wardens and Assistant Registrar (Security&Hostels) are working together to make arrangements in the hostel and dining halls. Our colleagues in administration belonging to various units are working silently behind the scenes to support all of us. Finally, the COVID committee has been working tirelessly to ensure that all goes well.

We also want to let you know that the following amenities are already functioning in the campus and accessible to all those who are not in quarantine:

1. Barber shops in NAC and Sarvam complex
2. Veg restaurant in Sarvam complex
3. Vegetable shop
4. Retail super market
5. Milk parlour shops
6. Photocopying centre (to be opened soon)

We look forward to your co-operation by being disciplined and urge you to take care of the health and safety of yourself and your campus co-residents. Please comply with the requests from security personnel at the gates and do not argue with them because they are doing their job for the safety of all of us. You may visit <https://covidadvisories.iisc.ac.in/> for updates and also learn about the experiences of students in quarantine.

Together we can!

Regards

Hari
