Subject: 26 June 2020: Update on Re-entry of research students

Dear Students,

I hope you and your family are doing well.

I hope you have received my earlier mail about the campus reporting one positive COVID case. In view of this development, all re-entry schedules are suspended with immediate effect until further orders. We understand that many of you were eager to return and have made plans but you will agree that safety and health are of utmost importance. We will review the situation and inform you about the revised schedule. We are sorry for the inconvenience caused.

Stay safe and healthy!

Thanks

Regards

Hari
