Subject: 2 June 2020: Additional information for Students

Dear Students,

You must have received my earlier mail about the revised guidelines for re-entry into IISc.

Please note

- Students from Maharashtra cannot return to the campus until further notice.
- Students in other states but residing in a red-zone cannot return to the campus until their zone turns green.
- The quarantine norms for students returning to campus will depend on the following cases:
 - International travellers returning to IISc: If the traveller is returning on an evacuation flight, GoI guidelines will enforce a 7-day quarantine at a GoK/GoI approved quarantine facility which is a 3-star/5-star hotel. The traveller will be asked to indicate the category of the hotel and would be assigned randomly by the authorities.

After completion of this period, the traveller can move to a 7-day 'home' quarantine at IISc (if returning to the hostel) or at home (if not returning to the hostel). Subsequently, the traveller can work at the lab and shall adhere to self-reporting for 14 days
 - Domestic travellers from within/outside Karnataka returning to the hostel: 14-day quarantine at IISc.
 - Domestic travellers within Karnataka **not** returning to the hostel: No quarantine
 - Domestic travellers from outside Karnataka not returning to the hostel: 14-day Home quarantine. Stamping marks at the point of entry into Karnataka will be verified along with a self-certification of home quarantine.

Expenses may be applicable for some of the above cases, to be borne by the traveller.

Please visit <https://covidadvisories.iisc.ac.in> for all advisories. FAQ section has some responses to quarantine related queries.

Looking forward to your safe return to IISc!

Stay safe and healthy!

Warm regards
