

From Covid Positive to Being Positive

I am one among you. Please read it if you can spare two minutes. I was one of those unfortunately fortunate persons who was affected by covid last year. Fortunate because I can write this email to you now. Yes, it took a toll on my body at that time. I could feel that I am not the best of myself.

It took some time for me to get back to normal. Now I am healthy, active, and excited about the future like all of you. That period was difficult for me, but it passed, which is the beauty of time, and this difficult time that we all are facing now will pass too. Whatever problems we have, remember they will not last long, and nothing is more important in life than life itself. So please be happy, joyous, and cooperate with the IISc covid team, who are doing everything possible to make us feel safe. Remember the phrase whenever you are worried about any situation.

'This too shall pass.'
